Water/E.coli Count	Cfu/100ml	MIC-225	<1	<1	
Water/Pseudomonas aeruginosa Count	Cfu/100ml	MIC-228	<1	<1	
Water/Faecal coliform Count	Cfu/100ml	MIC-225	<1	<1	

NOTES:
 CFU: Colony Forming Units
 Microbiological standards dictate that zero cannot be reported in cases where no growth is observed. The requirement is to then report as <1cfu/g or ml. Since most samples are diluted prior to testing, the dilution factor must be taken into account when reporting results. A result of **<1, <10 or <100** implies the absence of the specific test organism and is the lowest reportable result where no growth was detected.
 * Tests that are not accredited

Notes: This report relates only to the samples tested as received. Assurecloud does not accept responsibility for any matters arising from the further use of these results. This certificate shall not be reproduced, except in full, without the written approval of the Laboratory Manager. No reference may be made to Assurecloud or any of its units or employees in advertisements, for sale or publicity purposes without obtaining Assurecloud's prior written approval.
 Samples may be discarded two weeks from the issue date of this certificate, so please notify us within this time if you have any comments or queries about the results or the certificate.
